Inflatable tent

The inflatable tent is a modern, notable and easily transportable promotional tent. Thanks to the unprecedented personalisability of the tent, you stand out in any occasion. In fact, you can add customised printing to both the roof and the side walls. Thanks to the accessible set-up and take-down and the tent's light weight, it is very easy to transport and one person can easily set it up alone. If you ask us to describe these tents in two terms, we say: ease of use and personalisation!

DID YOU KNOW...

... you can install and take down the tent in just
10 minutes?

3 types

GLOBE:

- 4 legs

ZODIAC:

- 4 double legs

GALAXY:

- 6 legs

The inflatable tent:

SPECIFICATIONS:

- Frame of Dacron (high-quality polyester)
- Completely waterproof
- Fire retardant M2 / B1
- Anti-fungal
- UV blocking
- Sidewalls are rotatable (print on in- or outside)
- Personalised printing possible
- Compactly storable
- Lightweight and thus easy to transport

The incredible customisability of the inflatable tent makes it the promotional tent of choice to highlight your event, company, sponsor or association. The frame and roof canvas can be rolled up together compactly and a wide range of accessories are available for inflating, storing or anchoring the tent, and for connecting several inflatable tents.

PRINTING:

- Printable entirely according to your wishes
- All awnings and connections are also printable
- Send us your own design or let our designer create your eyecatcher

OPTIONS AND ACCESSORIES:

- Awning as roof extension
- Connections (between different sizes and types)
- Sand bags to connect to the legs or the sidewalls
- Different types of anchoring
- Roof and frame separately available
