

Star tent

The star tent is the perfect eyecatcher for every event. Its striking height and elegant appearance make it stand out from miles around. With just one central pole and a roof that is anchored at six points, the star tent also shaves high points in terms of ease of use. Nevertheless, the tent is still very compact and easy to transport. Moreover, with an eye-catching or just very clean print, you further increase the wow effect of the star tent.

The star tent: elegant and remarkable

TYPES:

- Single star tent (1 central pole)
- Double star tent (2 central poles)
